ABOUT MYSELF

Passionate about computer science and currently in my senior year of high school in Italy, I specialize in developing animations using the Python library Manim. I am curious and highly motivated to continuously explore and deepen my understanding of new technologies.
In addition to Python, I have experience with several programming languages, including HTML, CSS, JavaScript, C, C++, basic-level Java, and Markdown.

HOBBIES AND INTERESTS

Creare Animazione in python usando la libreria di Manim (Mathematical Animation Engine)

In my free time, I enjoy creating animations in Python using the Manim library. One of the projects I'm most proud of is an animation I developed for my school's web radio, which combines creativity, programming, and visual communication.
